	Total	**39**	**1.5**	***Minimum Marks***	***20 marks***	***25 marks***	***45 Marks***

Note: *For passing the student has to score a minimum of 45 Marks (CIE+SEE: 20 + 25 or 21 + 24)

COURSE PREREQUISITE: Knowledge of programming, Database Management Systems and Networks.

COURSE OBJECTIVES:

Sl.No.	**Course Objectives**
1	Design static and dynamic web pages.
2	Familiarize with client side and server side programming.
3	Learn database connectivity to web applications.

COURSE OUTCOMES (COs)

CO#	**Course Outcomes**	**Highest Level of Cognitive Domain**
CO1	Design web pages using XHTML and CSS.	L3
CO2	Develop dynamic web applications using JavaScript and PHP.	L4
CO3	Implement a web-enabled information storage and retrieval system using PHP and MySQL.	L3

L1 – Remember, L2 – Understand, L3 – Apply, L4 – Analyze, L5 – Evaluate, L6 - Create

Course Content / Syllabus:

Weeks	**List of Programs**	**No. of Hours**
1	Design web a page for the department timetable containing a suitable header, footer, description of the course codes and titles, faculty name and initialises, etc., use href, list tags and add University logo as a background. Using table tag and additional features like spanning rows, columns and table borders. [Refer: A sample class timetable]	03
2	a) Create a form to collect Student feedback. (Use textbox, text area, checkbox, radio button, select box etc.). b) Create a web page using frame. Divide the page into two parts with Navigation links on left hand side of page (width=20%) and content page on right hand side of page (width = 80%). On clicking the navigation Links corresponding content must be shown on the right-hand side.	03
3	Write HTML code to develop a webpage having two frames that divide the webpage into two equal rows and then divide the row into equal columns	03

	fill each frame with a different background colour.	
4	Create your resume using HTML tags also experiment with colors, text (bold, italic and different headings), image, link, size and also other related tags.	03
5	Design a web page using CSS with suitable design for the following: i.Demonstrate different font styles ii.Control the repetition of image with background-repeat property iii.Define style for links as a: link, a: active, a: hover, a: visited iv.Demonstrate Element visibility property	03
6	Design a web page of your institute (Ref: Sl.No. 1) with an attractive background color, text color, an Image, font etc. Use External, Internal, and Inline CSS to format the page.	03
7	a) Develop simple calculator for Addition, Subtraction, Multiplication and Division operation using JavaScript. b) Create HTML Page that contains form with fields Name, Email, Mobile No, Gender, Favorite Color and a button. Write a JavaScript code to validate all the fields when the button is clicked, later combine and display the information in textbox.	03
8	Write an XHTML document which displays a form containing text elements to input register number, sub-code, marks in three tests and a button element. Also write Java script compute the average of two best tests on click of button and print average marks using alert. Validate all the fields using JavaScript.	03
9	Develop an XHTML document and Java script to validate the following fields in a registration page: i. User ID (must be of length 5 to 12) ii. Name (only alphabets and the length should not be less than 15 characters) iii. Password (must be eight characters including one uppercase letter, one special character and alphanumeric characters) iv. E-mail (should not contain invalid addresses)	03
10	a) Write a PHP script to display today's date in dd-mm-yyyy format. b) Write a PHP script to check whether the number is prime or not when user input a valid number from client side.	03
11	Create HTML page that contain textbox, submit / reset button. Write PHP script to display this information and also store into a text file.	03
12	Write a PHP script for login authentication. Design an HTML form which takes Username and Password from user and validate against stored Username and Password in a file.	03
13	**Laboratory Test**	03
